PROFESSIONAL EXPERIENCE

Dotnet Developer [iRely soft services pvt ltd] , Remote **June 2023 - July 2023**

- Gained hands-on experience in developing and maintaining software applications using C# within a structured development environment.
- Worked closely with senior developers to learn and apply best practices in coding, debugging, and testing.
- Assisted in the design and implementation of new features and functional modules.
- Contributed to code reviews, improving code quality and maintaining project standards.
- Optimized existing code to enhance performance, readability, and maintainability.

Software Developer [Nuvizz inc], Bangalore **Oct 2023 - Oct 2024**

- Worked on Logistics web applications with Angular for frontend integration and ASP.NET core for backend development.
- Integrated Angular components with backend APIs and worked on minor UI changes and form-related enhancements.
- Developed and enhanced small backend modules and forms based on business requirements.
- Worked with RESTful APIs for data exchange and implemented JWT-based authentication for secure API access.
- Performed debugging, testing, and minor code improvements to resolve issues and maintain application functionality.

Software Developer at [Interbiz consulting pvt ltd] , Raipur **Feb 2025 - Oct 2025**

- Worked on Stripe payment gateway integration in an ASP.NET application for handling online payments.
- Integrated Stripe APIs and worked on basic payment-related functionality and webhook handling.
- Developed and modified REST APIs for payment requests, responses, and transaction-related operations.
- Added basic error handling and logging to help identify payment and API-related issues.
- Worked with the UI and backend code to support the payment flow and resolve integration-related issues.

Programmer [National Informatic Center] ,Raipur **Jan 2026 - August 2026**

- Worked on PMAY government housing application modules using ASP.NET MVC, Web Forms, Angular, and Web APIs.
- Worked on small modules, forms, and UI changes based on given requirements.
- Developed and modified REST APIs for data retrieval and communication between application modules.
- Worked with SQL Server and MySQL for basic database operations, queries, and data-related changes.
- Used JavaScript, jQuery, AJAX, and Bootstrap for form validation and minor UI enhancements.
- Worked on JWT authentication and basic API security requirements.
- Performed testing, debugging, and issue fixing in existing modules and APIs.
- Assisted with application changes and deployment-related activities as required.

PROJECTS

Last Mile TMS :

- Worked on a Last Mile TMS application used for managing delivery-related activities.
- Worked on Angular UI integration and connected frontend components with backend APIs.
- Developed and modified basic REST APIs using ASP.NET Core.
- Worked with SQL server for basic data storage and database operations.
- Implemented JWT-based authentication for user login and API access.
- Worked on features such as product listing, search, sorting, and total calculation.
- Performed basic testing, debugging, and issue fixing in the application.

Rovicare :

- suppliers, and patients for efficient order tracking and delivery.
- Developed platform modules using C# , ASP.NET Core, MVC , Angular, and SQL Server.
- Integrated third-party tools, APIs, and services and worked on payment integration like “Stripe” for secure and seamless payment processing.
- Contributed to the billing and invoicing engine, enhancing automation, financial accuracy, and overall scalability.

PMAY-G

- support and maintenance for an existing PMAY application, working with ASP.NET Web API, WebForms, and integrated third-party APIs to maintain smooth communication between application modules and external government systems. Handled SQL Server database operations, troubleshooting, bug fixing, minor enhancements, and performance-related issues. Collaborated with the client for issue resolution and requirement clarification, and supported application deployment and ongoing maintenance to ensure reliable system functioning.

PROJECTS AS A FREE LANCER

Finsurehub.com [Link]

- Developed a full-stackfinancial services web application using ASP.NET MVC and C#. The platform offers a comprehensive range of insurance and investment solutions, enabling users to connect service.

Nine&1Jewelry [Link]

- Jewelry Shop is aweb-based e-commerce application developed using ASP.NET MVC and C#. It enables customers to browse jewelry collections, view product details, and place orders online. The system also includes an admin panel for managing products, categories, inventory, and customer orders, providing an efficient and user-friendly shopping experience is Currently in demo phase.

EDUCATION

B-TECH (computer science engineering)

Rsr Rungta College of Engg and technology

74.08%
Chhattisgarh , 2017 - 2021

CERTIFICATION

- Java certification from Jspiders BTM , Bangalore , Karnataka
- PHP programming certification from Sensible Computers , Bhilai , Chhattisgarh

STRENGTH

Quick learener

Optimistic

Problem solver
